SUMMARY

Aspiring Data Scientist with hands-on experience in Machine Learning, NLP, Predictive Analytics, and AI-powered systems. Skilled in building anomaly detection models, forecasting systems, customer analytics solutions, and production-ready ML pipelines using Python, Scikit-learn, PyTorch, Streamlit, and MLflow.

SKILLS

Programming: Python, SQL, Java, C

Data Science: Machine Learning, Deep Learning, NLP, Predictive Analytics, Statistical Analysis, Feature Engineering

Libraries: Pandas, NumPy, Scikit-learn, PyTorch, Transformers, Hugging Face

Visualization: Power BI, Plotly, Streamlit, Excel

MLOps & Cloud: MLflow, Docker, DVC, Google Cloud Platform, AWS Basics

Databases: MySQL, Snowflake

Tools: Git, GitHub, Power Automate, SharePoint

Operating Systems: Linux (RHCSA Certified), Windows

PROJECTS

AI-Powered Sales Anomaly Detector

- Built an interactive anomaly detection dashboard using Streamlit and Plotly for identifying unusual sales patterns.
- Applied machine learning techniques using Scikit-learn to analyze structured sales datasets.
- Generated real-time visual insights and business intelligence reports for trend monitoring.

Production-Ready LLM Fine-Tuning Pipeline (LoRA)

- Developed an efficient fine-tuning pipeline for transformer-based LLMs using Hugging Face and LoRA.
- Optimized NLP model adaptation workflows for scalable production deployment.
- Integrated automated training and inference pipelines for language models.

Customer Churn Prediction System

- Developed predictive models for customer churn analysis using transactional datasets.
- Applied classification algorithms and feature engineering for retention analysis.
- Generated customer behavior insights supporting business decision-making.

INTERNSHIP

Data Specialist Intern, Technical Hub Pvt. Ltd.

May 2025 – Jun 2025

- Analyzed datasets using SQL, Excel, and Power BI to extract actionable insights.
- Developed automated workflows and reporting systems improving operational efficiency.
- Built scalable analytics and data processing solutions reducing manual effort.

ACHIEVEMENTS

- Successfully completed multiple AI/ML projects in anomaly detection, NLP, forecasting, experimentation, and predictive analytics.
- 5-Star Gold Badge in SQL — HackerRank
- Solved 320+ coding problems across LeetCode, CodeChef, and HackerRank.
- Google Gemini Ambassador — Conducted AI-focused sessions and promoted Generative AI adoption.

CERTIFICATIONS

- SnowPro Associate: Platform — Snowflake
- Oracle Certified Foundations Associate — Database (SQL)
- Google Cloud Career Launchpad — Generative AI Leader Track
- Red Hat Certified System Administrator (RHCSA)

RELEVANT COURSEWORK

Machine Learning, Deep Learning, Artificial Intelligence, Data Analytics, Database Management Systems, Cloud Computing, Operating Systems, Software Engineering

EDUCATION

B.Tech in Computer Science, Aditya College of Engineering and Technology

2023–2027

CGPA: 9.32/10

Intermediate (MPC), Aditya Junior College

2021–2023

Percentage: 97.40%
